Pasture Shadow for Milk Cows.

The question of shade in pastures is being

discussed, and we regret to see it urged

that shade is no benefit to dairy cows, but

on the contrary, a disadvantage in that

it fosters a kind of lazy inactivity and

thus, by preventing a full consumption of

food, lessens the yield of milk.

The advocates of "no shade in pasture,"

argue that the cow is simply a machine for

the manufacture of milk—that to make a

large yield requires a large amount of food

above that needed for the support of the

animal, and that when pastures are supplied

with trees or other shade, cows in hot

weather seek shelter and rest, and will not

feed for a full yield of milk. Take away

this inducement for comfort, they say, and

cows will rest no longer in the shade than

is necessary, because they will be com-

pelled in their discomfort to move about—

and thus grazing is promoted. We know

that large practical experience who

hold to this view of the question, and who

have taken pains to remove every shade

tree from their pastures. But is it a fact

that cows will give more milk under such

circumstances? And even though it be

shown that a gain of milk can be made by

removing all shade in pastures, are dairy-

men justified in adopting such a system?—

and will not the milk of cows so exposed to

the sun during intense hot weather be in-

jured?

So far as we learn, there have been

no properly conducted experiments to

prove that a larger yield of milk can be

obtained from cows when they are not al-

lowed shade in pastures, and we believe

it is a true cow who will give more milk

under such conditions. All our experience in the

care and management of milk cows teaches us

that the more comfort you can give the

animal the more milk she will yield, other

things being equal. When a cow is in the

shade during hot weather, she does not

escape the burning rays of the sun, and be-

cause it affords her relief and comfort, she

eats more than when she is in the sun. It is

the same way that it is a cruel practice to

compel cattle to bear the intense rays of the

sun during our hot summers. They need pro-

tection at such seasons, and if man finds

shade, at times, not only for his own com-

fort, there is no reason why the same rule

may not apply in some degree to our do-

mestic animals. We have reason to believe

that milk is not unfrequently seriously im-

paired, when cows have been exposed for

prolonged hours to intense heat under the

direct rays of the sun. It has a tendency to

make the animal feverish, and hence where

pastures are stripped of shade trees, it is

well to erect temporary shades. And these

temporary shades can be made useful for

marching troops and the poorest parts of

the fields that need manures, for these

shades will draw the cattle for such points

or rest and there will be an accumulation

of droppings which will be of great utility

in renovating these spots. But by chang-

ing the shade from place to place, as the

season requires these poor spots will be

permanently benefited all over the field.

Those who study to get the largest

results from milk cows are careful to keep

the animals as quiet and as comfortable as

possible. All excessive travel or labor in

cleaning food, all pain, fear, and anxiety

are disturbing causes that check the secre-

tion of milk to a much larger extent than

most people imagine.—Rural New Yorker.

THE POTATO DISEASE.—An important

discovery in relation to the potato has

been made by Mr. Worthington Smith, of

the Pennsylvania Experiment Station, who

has discovered when investigating the potato

with so-called "new" disease, of which so

much has been said and written of late, he

has distinctly detected the spores and au-

thieridium of the potato fungus, and has

ascertained one of the diseased leaves for

several days in water. The "new" disease

proves to be the "old" one, and in dis-

covery, in other words he says, "the old

Potato Disease is an unusual and ex-

ceptional condition." Mr. Smith, in a paper

recently read before the Society, recounts

the process by which he arrived at these

conclusions, in which he also explains his

reasons for thinking that "the fungus

which produces the potato disease, is ac-

tually in one stage of its existence, and in

that stage the resting spores are formed."

The reason the resting spores have existed

previous search is because no one has

thought of finding them amongst leaves

infested with water. The Society, having

awarded Mr. Smith the Bankian gold me-

dal, in recognition of the value of his

discoveries. Of course nothing is to be

done but additional scientific information of

the history of the disease, and its means of

propagation. No remedy is suggested, but

it is certain, however, the disease cannot

be cured until it is understood, and a correct

knowledge of its nature will, perhaps, in a

day suggest the proper means of preven-

tion or cure.—London (Eng.) Farmer.

A writer in the London Garden

describes his method of training petunias as

follows: "He takes hazel rods, about two

feet long, bends them like croquet hoops,

and drives both ends into the soil at suit-

able intervals, all over it. On these he

trains petunias, which blossom more abun-

dantly than usual under this treatment.

Petunias have been successfully treated as

if they were not petunias, and were trained

on a slanting trellis. The trailing habit of

this plant, especially late in the season, is

not always sufficiently considered.

TO CONSUMPTIVES.

THE advertiser, having been permanently

cured of that dread disease, Consumption,

by a simple remedy, is anxious to make known

to his fellow-sufferers the means of cure. To

all who desire it, he will send a copy of the

prescription, and (free of charge) a full

directions for preparing and using the same,

which they will find in a tract "On Con-

sumption, Asthma, Bronchitis, &c."

Parties wishing the prescription will send

a stamp, or a letter, to J. W. PATTERSON,

134 Penn St., Williamsburg, N. Y.

AWFUL DESTRUCTION OF A VILLAGE PORTUGAL IN INDIA.

The Bombay Gazette describes as follows a calamity which has raged on a village in India, the name of which is not given.

"One of the dark spots in Indian village life is the periodical visitation of some epidemic which almost every household carries off one or more of the occupants. The villagers may have been living in comparative health and happiness, and then suddenly the destroyer appears, and the scene is instantaneously changed from peaceful to one of horror and confusion."

In the case of the village of Bular, the scene is instantaneously changed from peaceful to one of horror and confusion. The scene is instantaneously changed from peaceful to one of horror and confusion.

The scene is instantaneously changed from peaceful to one of horror and confusion. The scene is instantaneously changed from peaceful to one of horror and confusion.

THE BELLEVILLE INTELLIGENCER.

THE CONSCIENCE AND FUTURE JUDGMENT.

I sat alone with my conscience, In a place where time had ceased, And I wondered if I was a sinner. In the land where the years increased. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

And I thought of the future judgment. And I thought of the future judgment. And I thought of the future judgment.

Daily Intelligence.
BELLEVILLE, THURSDAY, AUG. 16.

Town and Vicinity.

PEACEY'S CONCERT.—Subscription list now open at Harrison's. Tickets 50c. Seats reserved without extra charge.

LAWYER.—We learn that one of these pleasant entertainments have been given on the grounds of Senator Fitch, at an early day.

THE 12th OF AUGUST.—The Canadian Orange delegation are to be in London on the 12th of August, for the purpose of celebrating the anniversary of the "Relief."

THE FIRST RACE.—A punt race is to take place on Monday, the course for which is twice around Mill Island. A number of young men were engaged this morning navigating their tiny craft over the prescribed course. No doubt a good deal of fun will result from the race in question.

CHARGE OF ROBBERY.—Michael Mahon was charged this morning with assaulting Peter Charbonneau, and robbing him of his watch. No evidence was taken, and the case was adjourned for a week. It is generally supposed that the attack was on a drunken row, in which Mahon interfered to protect Charbonneau, whose watch was found this morning near where the row took place.

METRODISE PLEAS.—The picnic season is now at its height, scarcely a day passing without a picnic or excursion of some kind. Yesterday there was a picnic and a moonlight excursion, and to-day the Bridge Street and Kingston Road C. M. Sabbath Schools had their annual excursion. The attendance was very large.

YACHT CLUB.—It is proposed to take steps shortly for the organization of a yacht club in town. We hope that the proposition will be carried into effect, as Belleville is now one of the chief yachting centres, and such an organization, if properly conducted, would serve a very useful purpose, and be productive of good results.

THE ASSASSIN.—We understand that an arrangement has been made with Mr. Northcott, whose refusal to act as assessor we noticed a few days ago, and that he and his coadjutors, Messrs. Rutherford and Smith, have commenced the work of assessing the town. The rolls are returnable on or before September 30th, so that the assessors have no time to lose.

ORCHARD.—We regret to hear of the death of Mr. Josiah Gilbert at his home in Missouri, which intelligence was communicated to his friends here by telegraph yesterday. Mr. Gilbert was well known here, as a former resident of our town, and the news of his death will be received with deep regret by many friends here. His illness was of short duration, but its nature we have not been able to ascertain.

LETTERS.—Mrs. M. J. Holmes has given to the world another very clever novel under the above title, and Messrs. Belford Brothers have published and offer it for sale to the Canadian public. The leading characters are skillfully drawn, and interest in the plot never ceases until the denouement is reached, the story being well told. Messrs. Belford have issued the work in handsome binding, and the typography of the book is of a high order of merit. For sale by the trade everywhere throughout the Dominion.

PASSENGER TRAFFIC.—A large amount of passenger traffic is being done on the Grand Trunk at present, the express trains being largely and heavily laden. This is a legitimate result of recent improvements to the rolling stock and permanent way, which are now equal to those of any other first class line. Doubtless, the reduction in through rates has also something to do with the increased amount of trade noted.

GREEN ARMY.—This vinegary morsel, after an exchange, began to tempt the boys to predatory and unlawful excursions. But even when a boy has determined to do wrong, his conscience only sleeps to awaken again. The appearance of the boys who had been taken from the streets of the town, and who were now seen in the park near the station, was a sight to be remembered.

STRENGTHENED CHURCH.—The annual conference of the Board of Trade and Commerce is being held in this town, in connection with the North Riding of the Provincial Legislature, on Thursday and Friday, the 22nd and 23rd of October. The exhibition is open to all Canada. The following prices are offered:—For the best four classes, made in 2nd week in August, and sold by the trade, the price is \$2.00; for the best 3rd class, made in 3rd week in August, and sold by the trade, the price is \$1.50; for the best 2nd class, made in 4th week in August, and sold by the trade, the price is \$1.00; for the best 1st class, made in 5th week in August, and sold by the trade, the price is \$0.50.

THE CHURCH STEEP.—From the fashionable circles comes the announcement that there is a new step out among the ladies. It is called the "chicken" step. It threatens greatly to supersede the Grecian bend, and the "chicken" step is a new step out among the ladies. It is called the "chicken" step. It threatens greatly to supersede the Grecian bend, and the "chicken" step is a new step out among the ladies. It is called the "chicken" step. It threatens greatly to supersede the Grecian bend, and the "chicken" step is a new step out among the ladies.

Change of Business.

THE undersigned respectfully informs the public that he has disposed of the dry goods business heretofore carried on by him to Mr. M. Empey, who will carry on the business in all the branches on the same premises, and when he is called upon to receive the patronage of his old customers and the public generally. In retiring from the business he begs to return his sincere thanks to his friends for past favors.

R. P. FIDLAR, Belleville, June 28, 1876.

NOTICE!

HAVING purchased the business of R. P. FIDLAR, I am now offering some

CHEAP LINES

in

Cottons, Prints, and Tweeds.

M. EMPEY, Belleville, June 28, '76.

AUGUST METEORS.—The time for the

annual display of the "August meteors" is

approaching, says a contemporary, and it

behooves those who delight to gaze at

these celestial fireworks to prepare for their

appearance. These visitors from the inter-

planetary regions commence to enter the

atmosphere about the 10th of August, and

from that time until the 13th they are

visible in varying numbers. The period of

maximum display occurs generally on the

10th of August. They do not come in

such numbers as the November

meteors, but their appearance may be

relied on with certainty. The August

meteors very rarely make their appearance

on the night of the 10th of August in each

successive year, and may be seen in all de-

grees of brilliancy from the globe of light

outshining Venus or Jupiter and moving

across the firmament in stately grandeur,

while emitting a fiery train, to the hardly

perceptible twinkling of silver light of the

smallest shooting star. Their advent will

doubtless be watched for by astronomers

with interest.

Disgraceful Outrage.

CRIMINAL ASSAULT ON A FEMALE.

A special telegram from Toronto this

morning informs us that yesterday afternoon

Mrs. G. Smith, residing in the seventh con-

cession of St. Mary's, was returning home

from town. When near the rear of James Davis

farm, she was seized and carried by a man

named John Baker, in the employ of James

Davis. The man has left for parts unknown,

and Mrs. Smith is lying in a precarious con-

dition, and is expected to recover. The man

will be captured and treated as he deserves.

For recovery.

THE HEAT.—Prof. Bell informs us that

the thermometer (ordinary) stands at 80° in

the shade at noon today. With this

intense heat there is no wind, so that the

atmosphere is quite as oppressive as it has

been this season.

THE HEATED TERM.—Those who fondly

imagined that the "heated term" was over

for the season have proved to be mistaken

in their supposition. Yesterday's heat was

oppressive, and there have been no hotter

nights this year than last night proved itself.

DEATH.—We are informed that the young

man Kimbly, who a short time ago attempt-

ed to commit suicide by hanging in his

father's barn in Humberston, has been re-

covered from the effect of his self-inflicted

injuries. Our informant states that the unfor-

tunate young man was buried on the 3rd.

PRESENTATION.—A pleasing incident

occurred at the Friday evening meeting of

the John Street Presbyterian Congrega-

tion. The Rev. Mr. Burton was present,

and made a presentation of \$100 as a

TRAVELLERS' GUIDE.

A New Boston Table Book.—Nothing could better show the popular style of Mr. Vennor's beautiful work entitled "Our Birds of Prey" than the fact that it has become the latest and most fashionable parlor-table book both in Montreal and Quebec, and also a fair extent in Toronto. And certainly no book more beautifully illustrated for the purpose. The plates are exquisite portraits, taken from birds carefully sketched by Mr. Vennor from the woods and forests of Canada, and are the interest of every intelligent person and lover of nature. The large and clear letter-press of the work abounds in as does in new and interesting facts relating to the birds of the country, and is a valuable addition to the library of every naturalist. The book is a common one, as the whole edition is limited and is therefore divided into small lots, which are placed in widely separated parts of the Dominion, the sole object in its publication being the diffusion of information respecting our feathered tribes, and a desire to elicit something new. A beautiful copy of this book is now, we understand, in preparation for presentation to Lord Dufferin on his return to Ottawa. Canadian should encourage with a liberal hand this beautiful and entirely Canadian work. Some ten or twelve copies have been allotted to Belleville. Take them up at once.

FOSTER WARD.—In a communication published yesterday, Mr. A. Foster Ward defines his position in relation to the Grand Junction bonus by-law, which has been misrepresented in the civic contest in Foster Ward, now in progress. From this position, we imagine there is no room for who will feel inclined to dissent, as it is at once honest and fearlessly expressed. We hope Mr. Ward will be elected, as he is an old resident, thoroughly acquainted with the requirements of the law, and will be able to defend it with a liberal hand. The distance of Foster Ward from the polls on Tuesday next.

ASTRONOMICAL.—An astronomical writer writes from Montreal on the morning of August 18th, will approach very nearly to a star of the fourth magnitude known as Lambda, in Gemini. The planet will then be a morning star, rising before the sun, and will be seen in the morning. The distance of Venus from the earth being then only about forty and a quarter millions of miles, the phenomenon offers another opportunity for obtaining a knowledge of the planet, and is a most favorable one. The distance of Venus from the earth being then only about forty and a quarter millions of miles, the phenomenon offers another opportunity for obtaining a knowledge of the planet, and is a most favorable one.

NARROW ESCAPES.—Two narrow escapes from drowning occurred on Tuesday yesterday, but fortunately efficient help was at hand in both instances. In the first place, a little boy named Alfred Robertson fell from the ferry dock at the wharf, and was nearly drowned. He was rescued by Mr. Church, a little later in the day another boy, named unknown, fell into the river near Clark's blacksmith's shop. His screams were heard by Messrs. A. Corrie and C. O'Neil, who were passing by, and they immediately jumped into the water, and rescued him. The young man rescued him, and succeeded in reviving him. These cases ought to prove a warning to parents to look carefully after the whereabouts of their children at this season.

LAWN FESTIVAL.—An advertisement in another column apprises the public of the lawn festival to be held on Tuesday at the beautiful grounds on the evening of Wednesday next. The management is in the same competent hands which made this festival held last year so highly successful. The programme is well prepared for the evening, including the engagement of a brass band, which will play from 6 p.m. until the closing of the gates. Proceeds in aid of the orphan fund at the Bridge Street Asylum. Admission 10 cents.

THE BARLEY CROP.—A gentleman who has opportunities for forming an estimate are excellent, informs us that in this section there will be a large yield of barley, and that the grain will generally be light, though of good color. Late sowing has done better than early sowing, the latter having struck much more than the former. The acreage sown is very large, and no doubt the receipts here will be larger even than those of last year.

ACCIDENT.—While two boys were moving in a marsh, in Prince Edward, one of the boys, in striking at the grass with his scythe, threw the point of the implement too far forward, striking the other boy, who was moving behind him, on the side of the head. It cut the bone, and the boy was killed. The whites succeeded in capturing a considerable number of ponies.

Safe and Harmless.—Never sicken, never gripe, always give relief, and for habitual constipation, are unsurpassed in the civilized world, are some of the advantages of WATKIN'S CATHARTIC PILLS.

TALE GRASS.—The wonderful growth of the present season is well illustrated by the tall Hungarian grass, grown on the farm of Mr. John G. Savage, Tyndinaga. A sample of this grass which was sown on the 10th of June, and which was left in this office this morning, measured 4 ft. 11 in. long.

Letter from the Rev. C. Chiquinny. We have been requested to publish the following letter, from the Rev. C. Chiquinny to W. Wray, Esq. 1430 St. Catherine St. Montreal, 22nd July, 1876. W. Wray, Esq. Dear Sir, and kind friends, please give to our noble-hearted brother Oranger of Tynd, and accept for yourself, the thanks of the Rev. C. Chiquinny for the letters you collected on the 12th of July, to help me in my evangelic work among my countrymen. This letter, I have placed in the very moment I was in need of it for a Presidential and House of Representatives, which has already brought a most glorious result. How can I sufficiently pay you, Oranger of Canada, the debt I owe to you, for the noble and noble-hearted brother Oranger of Tynd, and accept for yourself, the thanks of the Rev. C. Chiquinny for the letters you collected on the 12th of July, to help me in my evangelic work among my countrymen. This letter, I have placed in the very moment I was in need of it for a Presidential and House of Representatives, which has already brought a most glorious result.

LAKE FREIGHTS.—Lake freight, as the Hudson River, are exceedingly low at present, but no one could have imagined it a few years ago that a ton of wheat would be carried from Chicago to Lake Ontario ports as low as some made last week—44 cents for wheat and 44 cents for corn. In the days when grain was carried at 20 to 22 cents ship owners fairly cleared money, and when in later years the price ranged from 10 to 14 cents they were happy. But railway competition and increase in tonnage of ship owners have put those days to flight. It is not likely that these old rates will be returned to for many years to come.

Daily Intelligencer.

BELLEVILLE, MONDAY, AUG. 7.
CRIMINAL INQUIRY.

This subject, which has acquired an unusual interest in the public mind of late, owing to the liberal exercise of the pardoning power by the Executive, has been engaging the attention of the Canadian Medical Association. Dr. Workman, late Medical Superintendent of the Provincial Lunatic Asylum at Toronto, at the meeting on the 2nd inst., read a carefully prepared paper on the subject, which received the approbation of his brother medicals. There are few men, probably none in this country, who are better fitted for the discussion of this subject than Dr. Workman, who, besides being an exceedingly able gentleman, had many years' experience in the important institution of which he has just resigned the charge. We do not propose to follow the learned gentleman in his lengthy remarks on the subject, further than to state his general conclusion, which is that crime is propagated, like all other diseases, and that in the case of the insane it is frequently the result of the exercise of the initiative instinct, which is the strongest in our nature. Instancing this, he said, that one suicide in a lunatic asylum in the United States was soon followed by several others, and again, that in 1869 there was a suicidal epidemic over the whole Province, and at the Toronto Asylum in particular, he noted in hanging himself. After that, he carefully cut out all accounts of murders and suicides contained in newspapers to which his patients had access, and so prevented the spread of the contagion. In this connection, the Doctor took occasion to ensure the press for publishing details of murders, and thereby inflaming the public mind against the culprits by giving publicity to statements which were not in all cases true. The worthy doctor is no doubt correct to some extent in his remarks upon this point, but he would probably be more charitable had he ever occupied the position of a reporter for the public press. In past years, with all due deference to the learned gentleman, publishers of newspapers are probably better judges than he can pretend to be, of what news matter they should and what they should not, give place to in their columns. As to the correctness of the information supplied at such times, it certainly cannot be subject for wonder that inaccuracies in detail will occur. The reporter is generally obliged to take his information at second hand, from the best obtainable sources, and to give it as he receives it. It is therefore neither just nor proper that newspapers should be made the subject of sharp denunciations on such matters, for it is impossible to get two persons to tell the same story concerning any exciting occurrence which they may have seen, even when placed in the witness box, with the formality of an oath to corroborate to testify truly. Again, the informants of newspapers are not frequently very their statements materially when giving testimony at a trial from what they related to the reporters. How, then, can the press be justly made the subject of censure under such circumstances? Dr. Workman would be wiser to turn his batteries against the persons whose fictions and exaggerations find access to the columns of the newspapers in the manner stated, than to assail those who, in the exercise of good faith to the misstatements of mistaken or malicious people. Even this would not be just, for the reason before stated, namely that no two persons can agree in every respect in their accounts of any exciting occurrence which they may have seen. Variation in detail in such cases is as certain as that no two men can be made to think exactly alike, the mental structure of each man influencing the other, so that he may be misled. For these reasons, we trust that Dr. Workman, and those who agree with him, will either modify their opinions in this respect, or consent to act as reporters for newspapers, and not as judges for a brief time, when we know that they will be cured of the ideas which at present lead them astray.

This, however, is a digression from the subject proper of our remarks, to which we will now return. Dr. Workman proceeded to recommend the adoption of the French system, which provides that in murder cases where prisoners plead insanity, they are placed in custody under the surveillance of skilled practitioners, who usually detect any sham which may be attempted to be practiced upon the jury. The blunder which shame makes is trying to appear insane, to feign the genuine madman tries to appear sane. There was a French doctor, the Doctor, "who there existed cases of insanity in which the intellectual derangement was scarcely, if ever, apparent. This was probably the worst form of insanity, because it could not show itself in words, but in acts." Though by no means new, this fact acquires additional force from the eminence of the gentleman who repeats it. The question then arises, are all murderers insane? And again, ought not one of this class of lunatics, who became insane for a brief period only, recovering his usual mental poise immediately after the commission of his crime, to be treated as would a sane and perfectly responsible being? The question is a delicate one, and we are rather inclined to the side of a merciful leniency in determining the mental state of the criminal by the French system, before pronouncing judgment, when there is any doubt in the doctor of a murderer's sanity. As the learned doctor put it forcibly, "the proof of a lunatic's insanity lies only in the subsequent recovery of the patient."

The true explanation of moral insanity "was only to be found by time, the great

"revolver of all secrets and the settler of all doubts, and, in instead of rushing off to fenders to trial with lightning speed and consigning them to the gallows, the solution of the question of the responsibility was arrived at by patient observation, justice would not be cheated, the law would be directed of sobriety, and the public sentiment would be improved. In conclusion he admitted the epidemic to be no myth, and why it should exist in our Province, the learned doctor said, "we are not called, was a question which he decided, but at the same time he decided, "I have the pulp and the press were much to blame." The Doctor's policy on this night, "cheat the gallow's" may be a guilty subject, and crowd our criminal lunatic asylum with patients who, in his opinion, "I am not called, but it is better, for, if we allow the law to take its course in this matter seems impossible on the side of mercy."

There is only one point more which we wish to touch upon in this connection, and that is the Dr. Workman's lecture. Dr. McConnell and Ward were both insane, yet our Minister of Justice allows the one to be hung for his crime, and sends the other to Penitentiary for a term, for a very inconsiderate proceeding on his part. Further, he commutes the sentences of Sparham, Davis, Smith (the Sonora murderer), and others, of the sanity of all whom there can be no doubt, yet allow the law to take its course in other cases not a whit more atrocious. Certainly, the pardoning power has been used of late years in a manner to disgust every one who has given attention to the subject, and the sooner that some such scheme as that proposed by Dr. Workman is put into practice, the better. Until that time, there will be no uniformity of practice, at least so long as Mr. Blake remains in office, and the scandals which his conduct has created will in some unfortunate case lead to the people taking into their own hands the execution of that law which the Minister refuses to carry out. In such instances, as the fancy seizes him, or as pleadings of influential friends influence his vacillating judgment. Such a result will be deplorable, but certainly public feeling against a stronger claim on the subject that little else can be looked for.

THE STOCK WAR.—The number of hostile Indians does not appear to diminish at the approach of arrangements made for their removal. There are said to be twenty-seven thousand fighting Sioux.

NEW DOCTOR.—It is said that a combined effort of the late Dr. Workman, of Montreal, and Bishop Lewis for the erection of a new diocese, to consist of the eastern counties of the Ontario Diocese and the western counties of the Montreal Diocese.

APPOINTMENTS.—The following appears in the *Official Gazette* of Saturday—James Strickland, of the Town of Toronto, in the Province of Ontario, to be a Collector in Her Majesty's Customs. His Excellency the Governor General has been pleased to appoint the Hon. W. B. Richards, Chief Justice of the Supreme Court of Canada, to be Deputy of the Governor General.

VICTORIA RAILWAY.—A telegram from London falls on the 14th inst. says: "The first train of cars crossed the Victoria bridge, here-to-day. There about seventy men laying ties and rails before the train, which the rails and material are carried on the Victoria bridge, in which about several miles of rails are already graded and ready for receiving the ties and rails."

FOREIGN MATERIALS.—Notice is given in the *Official Gazette* that the order in Council passed on the 15th day of June, 1860, authorizing the free entry of Canadian gauge cars manufactured by the National Car Co., of St. Albans, N. Y., and the material necessary for repairing them, is rescinded, and that hereafter all foreign materials imported into Canada for the repair of foreign railway cars disabled en route shall be subject to the duties payable by the tariff on such materials.

THE EASTERN TROUBLES.—The news from the seat of war is very conflicting. One account represents the war as finished, and Servia ready to sue for peace. Others say the insurgents are meeting with success, and that they have Moukatch Pasha in desperate straits at Tregline. The insurgents have besieged Tregline, an important point in the north of Herzegovina held by the Turks. Moukatch Pasha, who is in that vicinity, is unable to go to the rescue.

ANOTHER BUYER.—The Ottawa Free Press copies our footing up of Parliamentary losses and gains by the respective parties of a general election of 1874, and in the course of doing so, it has been obliged to say: "Now if we strike off from the 'Conservative' gain, South Renfrew, which was carried by Mr. White, the present member is 1874, and this previous gain has been examined, the list which he professes to credit, he would have found that neither South Renfrew nor North Renfrew was set down by us as a Conservative gain. Further, if he had looked at the record, he would have seen that Mr. White's Act of Parliament passed in 1853, and not with South Renfrew. Our critics in intelligence and information hit him excellently in the point, where, 'ignorance is bliss,' in treating of crime, as subject."

REVENUE AND EXPENDITURE.—The following is a statement of the Revenue and Expenditure, on account of the Consolidated Fund, of the Dominion of Canada, for the month ended 31st July, 1876:

	Amount.
Customs	\$764,743.21
Excise	256,879.29
Public Works, and other	\$7,473.45
Bill Stamps	11,723.85
Miscellaneous	24,908.61
	\$1,108,128.41
Expenditure	\$8,325,737.46
Excess of the revenue amount required to be held by law, \$7,217,609.	

News Condensed.

—Authorized shipment on American invoice, 10 per cent.

—The Mail has started a special early train between Toronto and Hamilton.

—Slight hopes of Cassius Vanderhulst's recovery are entertained.

—Archbishop Bourget's gaining strength, though he is not yet pronounced out of danger.

—Charges of outrage by the French on the western shore of Newfoundland are again made.

—A laborer named Hamel, employed by Hoffman, Wagon & Co., died from sunstroke at Waterloo on the 26th inst.

—Neil McNeil, driver of a mail wagon at London, was sunstruck on the 10th, but may recover.

—William Rie, eldest son of John P. Rie, of Bowmanville, was drowned while bathing at Port Darlington on the 10th.

—The Local Government have subscribed \$1,000 to the relief of the sufferers by the late fire in Quebec.

—The Home Government resigned on Friday and a new one was sworn in on Saturday. The reason of the change is not known.

—The stock of new potatoes on the By Ward Market in Ottawa, on Saturday, was so large that they sold at less than 25 cents per bushel.

—Hughes, the Gatineau murderer, and Resenham, the Torbenton murderer, are still at the penitentiary, and slight hopes are entertained of their capture.

—Two burglars were cleverly captured by the police in Toronto on Sunday morning. There were preparing to operate on a jewelry store.

—Three boys were bathing at Pipe's Bridge in Belesham, on Saturday, when one of them, aged 12 years, son of A. Gourlay, was drowned.

—A man named Henry Love was arrested at London on the 5th, with \$13,000 in his possession. He is charged with serious offences.

—The Educational Bill of the Government was carried in the Imperial House of Commons on Saturday after a very warm discussion.

—The agricultural and sewing machine works of Joseph Fleury, Aurora, were destroyed by fire yesterday. Loss \$80,000; no insurance.

—A Paris dispatch says many of the reports from the seat of war are manufactured for the purpose of influencing financial markets.

—A. B. Deion, of Port Barwell, received a sunstroke on the 5th, and lay in an unconscious state for nearly an hour. He seems in a fair way for recovery.

—David Scamellagh aged 16, was drowned on the 5th while bathing in the canal near Beatty's saw-mill, at Thorold. The body was found in thirty minutes afterwards.

—The race for the Queen's cup between the *Medicine* and *Confederate* of Deffries has been settled to take place on the 11th, 12th, and 14th instants.

—Mr. Bell, the unfortunate person who received such last week at the hands of the captain of a large at Chatham lock last week, is reported as having expired last evening from the effects of the wounds inflicted.

—There are said to be 18,000 square miles of coal in the province of New South Wales, and one-third more in Great Britain, which contains 11,900 square miles. The deposits probably equal all the coal in Europe, Russia not included.

—There has been an increase in the importation of beef into England in the last six months. The value was \$280,392, and \$121,915 fresh or slightly salted, and the respective sums of \$231,467 and \$269,676 last year.

—Mrs. Thompson, returning from Napier on the 5th, when near Selby got into her boat, M. O. Miller, and, upon the 6th, she was killed by a steam locomotive, which was passing, and throwing the lady over its head, hurting her severely in several places. Her two little girls were also hurt, but not so badly as their mother.

—The exports of merchandise from the United States during the last fiscal year exceeded the imports by \$76,000. At this rate the trade of the country should rapidly recover. The exports of the same period exceeded the imports by \$1,000,000. On the other hand large amounts of United States and other American goods are now held in stock, and the value of these, which must be paid abroad, amounts to many millions every year.

The Price of Food in Old Times.

Amid the never ending comments on the high price of food in this country, it is difficult to realize the fact that a time existed in Britain's history when wheat, as food for one hundred for a whole day, was worth only a shilling, and the average price of a sheep fourpence. In the reign of Henry I. the price of wheat was raised to six pence a quart for red and eightpence for white, in the price that the seller might be able to live by it. When wheat was at sixpence a quarter, the farthing loaf was to be equal in weight to twenty-four ounces if made of the whole grain and to sixteen ounces if consisting solely of wheat. And when wheat was one shilling and sixpence per quarter, as it sometimes was, the farthing white loaf was to weigh sixty-four ounces, and the whole grain ninety-six. Think of purchasing a four-pound loaf of good wheat bread for four farthings! In the nineteenth year of the reign of Edward I. the price of provisions in the city of London was fixed by royal command at a tariff which took two pence for wheat, and half a penny for barley, and two pence for oats, and a half penny for rye, and a half penny for peas, and a half penny for beans, and a half penny for lentils, and a half penny for mung beans, and a half penny for vetches, and a half penny for clover, and a half penny for hay, and a half penny for straw, and a half penny for chaff, and a half penny for dross, and a half penny for refuse, and a half penny for manure, and a half penny for bones, and a half penny for hair, and a half penny for horns, and a half penny for hoofs, and a half penny for claws, and a half penny for teeth, and a half penny for nails, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny for silver, and a half penny for gold, and a half penny for platinum, and a half penny for iron, and a half penny for steel, and a half penny for copper, and a half penny for brass, and a half penny for tin, and a half penny for lead, and a half penny for zinc, and a half penny USE OF RABBIT.

The skin of an animal whether cow, calf, or sheep, that does on a farm, is worth more at home, than at the tannery. Cut into narrow strips, and soak off in water with a sharp knife before the kitchen fire, or in your wash-tub, on stony days and evenings. You may make them soft by rubbing. A rawhide halter-strap an inch wide will hold a horse better and longer than an old rope. It is stronger than hoop-iron, and more durable, and may be used to keep dry cattle and horses, and for harness. Try it on a broken shaft, or any wood-work that has rotted, and you will find it a good substitute. The skin makes the best bagging for a sack. A rawhide rope is a good substitute for a chain link in a trace-chain. A broken link is best to use in its natural state. For other purposes it may be dressed with soft—Fennell's Compound.

Symptoms of Catarrh.

Dull, heavy headache, obstruction of the nasal passages, discharge falling from the throat, sometimes profuse, watery, acid, thick and mucous, mucous, purulent, mucopurulent, bloody, putrid, and sometimes, others, a dyspepsia, dry, watery, weak, or inflamed eye, ringing in ears, deafness, hawking and coughing to clear the throat, alterations, scales from ulcers, voice altered, nasal catarrh, indigestion, internal heat, taste, dizziness, mental depression, tickling in throat. Only a few of the above symptoms are likely to be present in any case at one time. When applied with Dr. Pierce's Nasal Douche, and accompanied with Dr. Pierce's Catarrh Remedy, the most perfect cure of Catarrh of the Nose, Throat, and Lungs, can be effected. This thorough course of medication constitutes the only scientific, rational, and successful manner of treating this disease, which has never been offered to the afflicted.

INSURANCE ADVISER. That J. Hulph, of South Brooklyn, N. Y. writes that his wife had suffered with Catarrh until it had resulted in what eminent physicians pronounced incurable, and that she had used Dr. Sage's Catarrh Remedy, and that she had Golden Medical Douche, and that they had worked wonders with her case.

TO CONSUMPTIVES.

The advertiser, having been personally cured of that dread disease, and by a simple remedy, is anxious to make known to all who desire it, the name of the cure. The prescription used (free of charge), with the directions for preparing and using the same, which will find a SURE CURE FOR CONSUMPTION, in Dr. J. C. Wilson's, 124 Penn St., Williamsburg, N. Y. Parties wishing the prescription will please address: DR. J. C. WILSON, 124 Penn St., Williamsburg, N. Y. jan25dim

ERRORS OF YOUTH.

A GENTLEMAN who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, sent free to all who need it, the response and direction for making the simple remedy by which he was cured. Sufferers wishing to be cured by the advertiser's experience can do so by addressing, in perfect confidence, JOHN R. GODDEN, 42 Cedar St., New York. jan25dim

A CARD.

TO all who are suffering from the errors and misdeeds of youth, nervous weakness, early decay, loss of manhood, &c., &c., I send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a Missionary in South America. Send self-addressed envelope to the Rev. JOSEPH T. JONES, Station D, Bible House, New York City. jan25dim

Every Body's Store!

THREE DOORS SOUTH OF THE DOMINION HOTEL.

THIS undersigned wishes to enter his partnership with Mr. W. H. Remie, late of P. J. Johnston's Gun and Lumber Establishment in Toronto. Mr. Remie is one who thoroughly understands his business, and is also prepared to repair all kinds of Sewing Machines, having had charge of a Sewing Machine Factory for some time. C. DUNBAR, (Signed) West of Lake Road, (Lake) 71 40 13 90 1 67 72 40 11 00 1 121 72 40 12 90 1 66 74 40 12 90 1 66 76 40 12 90 1 66 78 40 12 90 1 66 80 40 12 90 1 66 82 40 12 90 1 66 84 40 12 90 1 66 86 40 12 90 1 66 88 40 12 90 1 66 90 40 12 90 1 66 92 40 12 90 1 66 94 40 12 90 1 66 96 40 12 90 1 66 98 40 12 90 1 66 100 40 12 90 1 66 102 40 12 90 1 66 104 40 12 90 1 66 106 40 12 90 1 66 108 40 12 90 1 66 110 40 12 90 1 66 112 40 12 90 1 66 114 40 12 90 1 66 116 40 12 90 1 66 118 40 12 90 1 66 120 40 12 90 1 66 122 40 12 90 1 66 124 40 12 90 1 66 126 40 12 90 1 66 128 40 12 90 1 66 130 40 12 90 1 66 132 40 12 90 1 66 134 40 12 90 1 66 136 40 12 90 1 66 138 40 12 90 1 66 140 40 12 90 1 66 142 40 12 90 1 66 144 40 12 90 1 66 146 40 12 90 1 66 148 40 12 90 1 66 150 40 12 90 1 66 152 40 12 90 1 66 154 40 12 90 1 66 156 40 12 90 1 66 158 40 12 90 1 66 160 40 12 90 1 66 162 40 12 90 1 66 164 40 12 90 1 66 166 40 12 90 1 66 168 40 12 90 1 66 170 40 12 90 1 66 172 40 12 90 1 66 174 40 12 90 1 66 176 40 12 90 1 66 178 40 12 90 1 66 180 40 12 90 1 66 182 40 12 90 1 66 184 40 12 90 1 66 186 40 12 90 1 66 188 40 12 90 1 66 190 40 12 90 1 66 192 40 12 90 1 66 194 40 12 90 1 66 196 40 12 90 1 66 198 40 12 90 1 66 200 40 12 90 1 66 202 40 12 90 1 66 204 40 12 90 1 66 206 40 12 90 1 66 208 40 12 90 1 66 210 40 12 90 1 66 212 40 12 90 1 66 214 40 12 90 1 66 216 40 12 90 1 66 218 40 12 90 1 66 220 40 12 90 1 66 222 40 12 90 1 66 224 40 12 90 1 66 226 40 12 90 1 66 228 40 12 90 1 66 230 40 12 90 1 66 232 40 12 90 1 66 234 40 12 90 1 66 236 40 12 90 1 66 238 40 12 90 1 66 240 40 12 90 1 66 242 40 12 90 1 66 244 40 12 90 1 66 246 40 12 90 1 66 248 40 12 90 1 66 250 40 12 90 1 66 252 40 12 90 1 66 254 40 12 90 1 66 256 40 12 90 1 66 258 40 12 90 1 66 260 40 12 90 1 66 262 40 12 90 1 66 264 40 12 90 1 66 266 40 12 90 1 66 268 40 12 90 1 66 270 40 12 90 1 66 272 40 12 90 1 66 274 40 12 90 1 66 276 40 12 90 1 66 278 40 12 90 1 66 280 40 12 90 1 66 282 40 12 90 1 66 284 40 12 90 1 66 286 40 12 90 1 66 288 40 12 90 1 66 290 40 12 90 1 66 292 40 12 90 1 66 294 40 12 90 1 66 296 40 12 90 1 66 298 40 12 90 1 66 300 40 12 90 1 66 302 40 12 90 1 66 304 40 12 90 1 66 306 40 12 90 1 66 308 40 12 90 1 66 310 40 12 90 1 66 312 40 12 90 1 66 314 40 12 90 1 66 316 40 12 90 1 66 318 40 12 90 1 66 320 40 12 90 1 66 322 40 12 90 1 66 324 40 12 90 1 66 326 40 12 90 1 66 328 40 12 90 1 66 330 40 12 90 1 66 332 40 12 90 1 66 334 40 12 90 1 66 336 40 12 90 1 66 338 40 12 90 1 66 340 40 12 90 1 66 342 40 12 90 1 66 344 40 12 90 1 66 346 40 12 90 1 66 348 40 12 90 1 66 350 40 12 90 1 66 352 40 12 90 1 66 354 40 12 90 1 66 356 40 12 90 1 66 358 40 12 90 1 66 360 40 12 90 1 66 362 40 12 90 1 66 364 40 12 90 1 66 366 40 12 90 1 66 368 40 12 90 1 66 370 40 12 90 1 66 372 40 12 90 1 66 374 40 12 90 1 66 376 40 12 90 1 66 378 40 12 90 1 66 380 40 12 90 1 66 382 40 12 90 1 66 384 40 12 90 1 66 386 40 12 90 1 66 388 40 12 90 1 66 390 40 12 90 1 66 392 40 12 90 1 66 394 40 12 90 1 66 396 40 12 90 1 66 398 40 12 90 1 66 400 40 12 90 1 66 402 40 12 90 1 66 404 40 12 90 1 66 406 40 12 90 1 66 408 40 12 90 1 66 410 40 12 90 1 66 412 40 12 90 1 66 414 40 12 90 1 66 416 40 12 90 1 66 418 40 12 90 1 66 420 40 12 90 1 66 422 40 12 90 1 66 424 40 12 90 1 66 426 40 12 90 1 66 428 40 12 90 1 66 430 40 12 90 1 66 432 40 12 90 1 66 434 40 12 90 1 66 436 40 12 90 1 66 438 40 12 90 1 66 440 40 12 90 1 66 442 40 12 90 1 66 444 40 12 90 1 66 446 40 12 90 1 66 448 40 12 90 1 66 450 40 12 90 1 66 452 40 12 90 1 66 454 40 12 90 1 66 456 40 12 90 1 66 458 40 12 90 1 66 460 40 12 90 1 66 462 40 12 90 1 66 464 40 12 90 1 66 466 40 12 90 1 66 468 40 12 90 1 66 470 40 12 90 1 66 472 40 12 90 1 66 474 40 12 90 1 66 476 40 12 90 1 66 478 40 12 90 1 66 480 40 12 90 1 66 482 40 12 90 1 66 484 40 12 90 1 66 486 40 12 90 1 66 488 40 12 90 1 66 490 40 12 90 1 66 492 40 12 90 1 66 494 40 12 90 1 66 496 40 12 90 1 66 498 40 12 90 1 66 500 40 12 90 1 66 502 40 12 90 1 66 504 40 12 90 1 66 506 40 12 90 1 66 508 40 12 90 1 66 510 40 12 90 1 66 512 40 12 90 1 66 514 40 12 90 1 66 516 40 12 90 1 66 518 40 12 90 1 66 520 40 12 90 1 66 522 40 12 90 1 66 524 40 12 90 1 66 526 40 12 90 1 66 528 40 12 90 1 66 530 40 12 90 1 66 532 40 12 90 1 66 534 40 12 90 1 66 536 40 12 90 1 66 538 40 12 90 1 66 540 40 12 90 1 66 542 40 12 90 1 66 544 40 12 90 1 66 546 40 12 90 1 66 548 40 12 90 1 66 550 40 12 90 1 66 552 40 12 90 1 66 554 40 12 90 1 66 556 40 12 90 1 66 558 40 12 90 1 66 560 40 12 90 1 66 562 40 12 90 1 66 564 40 12 90 1 66 566 40 12 90 1 66 568 40 12 90 1 66 570 40 12 90 1 66 572 40 12 90 1 66 574 40 12 90 1 66 576 40 12 90 1 66 578 40 12 90 1 66 580 40 12 90 1 66 582 40 12 90 1 66 584 40 12 90 1 66 586 40 12 90 1 66 588 40 12 90 1 66 590 40 12 90 1 66 592 40 12 90 1 66 594 40 12 90 1 66 596 40 12 90 1 66 598 40 12 90 1 66 600 40 12 90 1 66 602 40 12 90 1 66 604 40 12 90 1 66 606 40 12 90 1 66 608 40 12 90 1 66 610 40 12 90 1 66 612 40

An Eccentric Irish Gentleman.

A CURIOUS WILL CASE.

The trial of the will case of Pardon v.

Lord Longford, in the Court-house of the

city for the last seven days, has been

marked by the interest of the spectators

and the importance of the case.

The will was made by a Mr. Adolphus

Coke, a very eccentric old gentleman, whose

property amounted to the value of £50,000.

He died in January, 1875. By it he

left to the second son of the defendant, a

minor, and interdicted the plaintiff, who is the

heir-at-law. The case is one of the

most important of the kind.

The plaintiff is a man of property, and

has been in the habit of paying the

defendant a pension of £1,000 per

annum. The defendant is a man of

property, and has been in the habit of

paying the plaintiff a pension of £1,000

per annum. The case is one of the

most important of the kind.

No. 7, Mixed, 12:45 p. m.

STAGE ROUTES.

Stages leave the principal hotels for the un-

dermentioned places at the hours named:

FOR STERILIA—Daily, at 8 a. m., and 2 p. m.

FOR MARION—Daily, at 2 p. m.

FOR BRIDGEVILLE, TUESDAY, at 2 p. m.

FOR THURSTON—Daily, at 3 p. m.

FOR THURSTON—Daily, at 2 p. m., whilst north-

wards is closed.

The stages arrive in Belleville about noon

each day.

Daily Intelligencer.

BELLEVILLE, FRIDAY, AUG. 11.

Town and Vicinity.

The Celia—"The coop" was young

light for the first time in several

days.

Pic-Nic—The pupils of the M. E.

Church, Niagara, are holding a picnic at

Massena Point today.

ROYAL ARCH MASONS—At the meeting

of the Grand Chapter of R. A. in Mont-

real on the 9th inst., R. E. Comp. Alfred

Ellis, of Belleville, was appointed Super-

intendent of the Prince Edward District.

ROCKY—The *Northwest Register* says:

"A by-law, to grant a bonus of \$3,000 to

the Grand Junction Railway, is being pre-

pared to be submitted to the ratepayers of

the first eleven lots of this Township."

A NARROW ESCAPE—A man by the

name of James Leo, residing in Tynd-

ridge, was thrown from his wagon on

August 10th, on the corner of West

and Bridge Streets, Niagara, and received

such injuries as to nearly prove fatal.

PERSONAL—We regret to learn that Mr.

W. H. Graham, merchant, of this town, is

seriously ill, at fever at Philadelphia. A

telegram to this effect was received by his

relatives here this morning. A subsequent

telegram gives a more hopeful view of the

case.

PERSONAL—The *Brookville Recorder* of

the 10th inst. "Mr. W. A. Foster, Mayor

of Belleville, was in town yesterday, attend-

ing to the completion of a large coal con-

tract with the Grand Trunk Railway Co.

Nearly all of it will be delivered this

month."

THE INTERNATIONAL YACHT RACE—Two

or three gentlemen, residents of this town,

have come to New York to enter the

race for the "Queen's Cup" between the

yachts *Comet* of *DeWitt* and *Madeleine*.

This fact serves to indicate how deep an

interest is taken in the matter in Canada.

PERSONAL—R. W. Barker, Esq., P. O.

Inspector, was in town today, and estab-

lished a letter box at the Grand Trunk

Station for the benefit of the public.

Jas. Shannon, Esq., proprietor of the

Kingston News, called upon us in company

with Mr. Barker.

BURNED FIRE—We are informed that fire

are devastating the woods to some extent

in the northern part of this county, though

no damage to settlers' property has as yet

been reported. These fires are probably

the result of carelessness in the burning of

summer fallows, which is annually the

cause of the destruction of much valuable

timber.

BROOKING SCARCE—The *Cambellford* *Herald* says: "Agreeing with what we

asserted previous to the American Silver

crisis in this place, the silver is now able

to say that the coin has gradually become

less plentiful, and at present has almost

disappeared. The twenty per cent. depre-

ciation in value was an effectual move and

one which should have been anticipated

previous to the time of its introduction.

Little or no difficulty is now experienced,

every person readily allowing the discount

in whatever business transaction is enac-

ted."

PIC-NIC—Twelve young Brantia

Hicks picnic at Hickory Point on the 10th

inst., to commemorate the relief of Derry.

The picnic was very creditable to those

young men. The enjoyments were boat-

ing and other amusements. Everything

passed off pleasantly and without a jar.

Hickory Point is one of the most beau-

tiful spots for those who wish a day's re-

creation to have it, and there is excellent

fishing in the Lake, and pleasure parties

could not enjoy themselves better than by

going to that place for sport, as Tweed has

some of the most delightful spots in its

vicinity, and good hotel accommodation

for travellers.

ANOTHER RULES—Secretary Bristow

has sent the following communication to

the Collector of Customs, Oswego: "You

lettered the 31st ult., is received, includ-

ing application by J. C. Hayes, Esq., the

United States Consul Agent at Belleville,

Canada, in behalf of a party of gentlemen,

requesting permission to pass through the

Customs, and thence down the Hudson, and

to proceed to Philadelphia, upon their own

yacht, about twenty-seven tons burden,

carrying stores sufficient for their use while

visiting the Centennial Exposition. You

are informed that a vessel regularly regis-

tered for the purpose of carrying passengers

and merchandise might, under the

7th article of the Treaty of Washington,

proceed from your port as far as Albany,

but if found in ballast, or with goods on

board, and proceeding from district to dis-

tinct border that port, she might be liable

to the disabilities mentioned in section 4-

371, Revised Statutes. This department

has no power to grant such a permit in ad-

vance as would exempt the yacht moving

as contemplated from such contingent dis-

abilities. The law is rigid in its terms, and

the department has no discretion in the

premises."

ST. GEORGE'S SOCIETY.—The attendance

at the annual meeting of this Society last

night was as small that the election of offi-

cers was postponed for a week.

RECREATION.—The excursion of Maiden

City Lodge of Pretoria Boys to St. John's

Point today was well patronized, and no

doubt the excursionists had a very enjoy-

able trip.

QUESTIONS.—The members of the Bel-

leville Quail Club are engaged this after-

noon for the gold quail, emblematic of

the championship. No doubt some fine

shots will go upon the record.

TURNIP INSECT.—The *Geophila* Mer-

curia that a new and destructive pest has

attacked the turnip crop in some sections

of the Province. It is not the fly or flea

hopper, which only attacks the plant in its

early rudimentary stage, which is now past.

A farmer in the township of Necheux

states that as he proceeded to single out

his crop lately, he found large patches,

several yards in length, cut down in drills

apparently as if done by a grub, and he

observed that the plants were cut across

by a cut worm. These plants are en-

tirely destroyed, and the same effect has

been noticed on several other farms.

SANITARY EFFECT OF SMITH-THEAT.—

The *London Medical Examiner*, alluding

to the sanitary effect of the late epidemic

from the scene of relief and coolness which

they impart, their value as purifiers of the

atmosphere is almost incredible. It has

been calculated that a good-sized elm, plane

or line tree will produce 7,000,000 leaves,

having a united area of 200,000 square feet.

The influence of such a large surface in the

absorption of deleterious gases and the ex-

halation of oxygen must therefore be of

immense benefit in overcrowded and un-

healthy districts. It is now well known

that the same family are the most suitable

as they not only possess a large leaf surface

to the atmosphere, but by the bark they

annually throw off the result of smoke,

acids, and other poisonous fumes which by

accumulation would be fatal to the oak or

other trees of slower growth and appar-

ently more hardy nature."

CANADA AT THE CENTENNIAL.—Rev. Dr.

Jaques, President of Albert University, con-

cludes a letter to the *Christian Advocate* on

the subject of the Centennial Exposition, as

follows: "Here it is very gratifying

to be able to state that in Education Cana-

da represents the most complete and bril-

liant display in the Exposition has been

admitted by the highest authority. No

educator should neglect an opportunity to

study the Educational display of the Great

International Exposition. It is a good in-

vestment in time and money. It will pay

in new ideas and new contacts. It is a

great 'Teachers' Institute,' a grand array of

'Object Lessons,' an illustrated Library of

universal knowledge, that will abundantly

enrich and exalt the mind of the studious

teacher. In constant contact with the in-

telligently said that in all departments Great

Britain, and especially Canada, make most

magnificent displays. The thoughtful Cana-

dian will return from the Centennial Ex-

position with broadened views of other na-

tions, but with less disparage of the

proud position of his own loved Canada."

Police Court.

(Before A. L. SMITH, Esq., J. P.)

FRIDAY, AUG. 11.

ASSAULT.

James Duckworth, tried for criminal

assault on Annie Baubien, a little girl, was

fined \$4 and costs, he being convicted of

common assault and new contacts. It is a

great 'Teachers' Institute,' a grand array of

'Object Lessons,' an illustrated Library of

universal knowledge, that will abundantly

enrich and exalt the mind of the studious

teacher. In constant contact with the in-

telligently said that in all departments Great

Britain, and especially Canada, make most

magnificent displays. The thoughtful Cana-

dian will return from the Centennial Ex-

position with broadened views of other na-

tions, but with less disparage of the

proud position of his own loved Canada."

DANGEROUS LUNATIC.

Elizabeth Byrne, of Hungerford, was

committed as a dangerous lunatic.

Other business was postponed until 3

p. m.

FROM NORVAL.

DWELLING BURNED.

NORVAL, Aug. 11.—The dwelling house

of Mr. John Robinson, 9th line Esquimaux,

was destroyed by fire. The occupants bare-

ly escaped with their lives. The house and

contents were insured in the Commercial

Insurance Co. of Montreal. Partially insured.

FROM SOUTH BAY.

HOUSE BURNED.

SOUTH BAY, Ont., Aug. 11.—The house

of Geo. Collier, and contents, were totally

destroyed by fire about one o'clock this morn-

ing. The family barely had time to escape

after the discovery of the fire. The origin of

the fire is unknown. The house and contents

are insured in the Prince Edward Mutual for

\$600. Total loss about \$1,000.

THE RIFLE.

THE ONTARIO-CENTENNIAL TEAM.

HAMILTON, Aug. 9.—A meeting took

place here to-day of the marksmen who are

to compose the Ontario team to the Cen-

tennial match, for the purpose of electing

a captain, and to name the eight men, with

two reserves, for the team. Col. T. C.

Schole, of Toronto, was unanimously

chosen. The team is as follows: J. Mason,

A. Bell, Geo. Marston, H. W. Cruik, Major

J. M. Gibson, Lieut. James Adams, Major

Cotton, and George Diabier, with George

Margaret and Captain Johnson, reserves.

Arrivals Reported at Custom

HOUSE.

BELLEVILLE, Aug. 11.

Per G. T. E. J. Granger, 1 case; P. H.

THE INTERNATIONAL YACHT RACE

The Madeleine Leading.

NEW YORK, Aug. 11.—The yacht *Madeleine*sailed at 11:17. When last seen, the *Comet* wasgradually getting away from the *DeWitt*.

LATER.

At 1:46 the yacht *DeWitt* rounded the buoyof Sandy Hook, 5 minutes behind the *Made-*leine. The *Madeleine* rounded the light ship at2:52, the *DeWitt* at 2:57.

MORNING DISPATCHES.

EUROPEAN.

An Extradition Case.

LONDON, Aug. 11.—John Walton, of New

York, who was extradited by France under

the extradition treaty between that country

and Great Britain on a charge of forgery, was

sentenced to three months' imprisonment on

the question previously raised before a

magistrate at Guildhall that he could not be

tried, except for the offence for which he was

arrested, under the extradition treaty. The

court for the defence again raised the same

objection, which was held good, and the prisoner

was released.

PARIS, Aug. 11.—A report of the death of

Durnof, the aeronaut, proves untrue.

AMERICAN.

The Indian War.

TERRY'S FORCES ADVANCING.

NEW YORK, August 11.—A despatch from

Terry's camp says that reinforcements under

Gen. Miles arrived on the 3rd, and a forward

movement up the Roseau Valley of Terry's

forces began on the 7th.

Arrived, the S.S. *John Dransell*, from South

American ports.

and towns with other minor powers has

been prominently exalted. The much-

coveted right of adoption has been conferred

on this ruler too for service rendered

by him to us in the Mutiny. The

Government is very largely contented

according to the advice of the British Resident.

Sindia pays a subsidy towards the com-

struction and repair of a grand military

road which passes through Central India,

and British garrisons and contains a

very strong fort at Gwalior. The

British Government is not at all

satisfied with the present state of the

palace and the city itself. Holkar, the

inferior of Sindia in wealth, in military

forces, and in extent of possessions, is

not so well as he is. He has received permis-

sion to adopt, and on his own account

YACHTING.

THE FIRST RACE FOR THE

QUEEN'S CUP WON BY

THE MADELINE.

Gallant Struggle by the Countess.

(From the Mail.)

ON BOARD THE COUNTESS OF DUFFIN.

ST. ALBANS, S. I., Aug. 11.

The past week has been a very busy one

on board the Countess of Duffin. Last

Saturday the yacht was, indeed, around

fairly beaten today, and was launched on the

rally. Early on Monday morning

a large crowd of spectators gathered

around the yacht, and the Countess

was the first to start. The Countess

was the first to start. The Countess

was the first to start. The Countess

was the first to start. The Countess

DAILY INTELLIGENCER.

DEMENTED.

(From the Mail.)

The spirit of Danton must have entered into

the "animator" of the Grit organ. Their

audacity, ever since the most forgettable of

some of the leaders of the Party, is simply

unparalleled. The greater the mischief they

utter, the stronger seems to be their power of

endurance. In their race at the evident de-

struction of the Party, they strike with all the

width of men who are desperate. Perhaps

they are a few steps ahead of the "animator."

On what other supposition can we account for

the outrageous article which appeared yester-

day in the columns of the chief organ. Though

it is almost beyond contempt in its verbiage

and its tone, it cannot be said to pass un-

noticed. We give a few extracts:

"The loss of faith society have a natural

propensity to the Conservative rally, and

will any one call his eye over the political

scene of the last three years and say it be-

comes a Grit article to read a statement

at this? Where would Mr. Mackenzie and

his Party be today but for the "loose fish

"? For another, by the power of Cabinet

or other positions, he brought the "loose fish

" to the surface, and he has been all the

while the member for Hamilton, who was

thereby enabled to take a position he has

amply shown his ability to disgrace.

Throughout the country, it must be said to

the credit of the Conservative Party that

they have stood well to their leader and their

Party. There have been some who have

fallen away, but the majority have stood

firm. The Government has a reputation of

being the Government of the Conservative

Party. On the other hand, the Government

have been "loose fish," however, but men who

from conviction and observation have honestly

come to the conclusion that they can be no

longer property in the Dominion until Mack-

enzie and his crew are removed from power.

"The [the Richmond Guardian] says that

Reformers claim to be possessed of a higher

Daily Intelligencer.

BELLVILLE, TUESDAY, AUG. 15.

THE NEW PEBB.

The announcement made by telegram

on Sunday that Mr. Darnell, the distinguished

Premier of Great Britain, had accepted

a seat in the House of Lords, with the title

of Earl of Beaconsfield, has been received

with mingled feelings of regret and of

gratification by the many admirers of the

leading statesman of Great Britain. The

regret will arise from the fact that, by his

acceptance of the peerage, he has lost the

right which he frequently refused, Mr.

Darnell acknowledges that the decadence

of his physical powers compels him to re-

sist on the staid and sedentary position of

upper chamber. By this change the

empire will lose considerably, as it must

be confessed that Sir Stafford's energy and

cleverness as a statesman is not so able a

counterbalance of Earl Beaconsfield as could have

been desired. It is remarked in some

quarters that the new peer will prove of

little consequence to the House of Lords

the post of leader in the Commons. This

need not necessarily be, as in previous times

the Earl of Derby, as a very successful

leader, and other examples of like kind

are all wanting. To such a man as Mr.

Darnell, the "elevation" to the peerage

is in name more than reality, as his dignity

is not really increased thereby, still, the

"glittering bauble" has been an object of

envy even greater than he and it seems a

fitting tribute to the honors already

bestowed on him by the people.

Seldom has there been a more remarkable

career than that of Benjamin Disraeli.

The son of a despotic and persecuted man,

without the least influence of wealth to

assist him, he yet won his way, in times

when great men were not scarce, to the

highest position to which a subject can

aspire. Beginning life in a library, he

exercised himself at spare time in literary

pursuits, towards which his fancy

strongly turned him. The consequence was

the production of several works which

secured him celebrity in his day, and, yet

yet popular, among them being "Vivian

Gray," and "Contarini Fleming." From

literature he turned his attention to politics,

but at first he was not successful in his

efforts to obtain a seat in the House, being

twice defeated. A fourth attempt, however,

successful, and Mr. Disraeli, who was then

a violent Radical and a foe of the first

water, was returned for Maidstone in 1837.

His first effort at oratory in the House must

have driven any critic to despair, for, in

his speech, he was so completely out of

his mind, as he was fairly laughed down,

the inflation of style and personal vanity of

the Jewish member being too much for

the patience of the House. Perseverance,

however, and a stern resolution to retire,

from the part of young Disraeli had their

usual effect, and ere long, when his

speeches were fairly manifested, Mr. Disraeli

showed his political alliance, Mr. Disraeli

on the death of Lord George Bunsford, he

assumed the Conservative leadership in

the Commons—a position which he has

held for nearly twenty years. In 1852 he

became Chancellor of the Exchequer; he

was again appointed to that office in 1858,

and once more in 1866. On Lord Derby's

resigning the Premiership in 1868, Mr.

Disraeli became Prime Minister, but he

held office for a few months only, as he

was the general election of 1868, and his

members were returned in opposition to his

administration. Time, however, brought

him revenge, as in 1874 he secured a

victory from the people which amply

compensated for his disappointment a few

years before.

These are the salient points in the career

of this remarkable man. To his own gains

he owed much, but his wife was a powerful

assistant to him on his political career.

This amiable lady, who was considerably

older than her distinguished husband, died

in 1873, having some five years previously

been created Viscountess Beaconsfield.

Since Mr. Disraeli's death, the reins of

power England has been well and safely

governed. The influence of the nation in

European politics has been reassured, and

home and colonial affairs have received

close attention. The government of the

country remains in his hands, and we trust

it may long continue to be in such

competent care.

THE QUEEN'S LOAN.—A cable telegram

states that the Province of Quebec has

offered to loan the London market in a satisfactory

manner, though rather slowly.

MERCHANT SHIPPING BILL.—A cable

despatch of the 14th says: "The Merchant

Shipping Bill has been settled to the satisfaction

of Canadian. The Commons carry an

amendment against the Lords."

STAMEN LOAN.—A cable telegram

of the 14th says: "The Stamen Loan, for

Maryport for Antwerp, was voted on

Saturday off St. David's Head. The captain

and fourteen men were lost."

CANADIAN CATTLE FOR ENGLISH

MARKETS.—The London Times of the 25th

ultimo, in its Metropolitan Cattle Market

reports, says: "The most noticeable feature

of our trade to-day has been the arrival

of about 100 Canadian oxen, which after a

transit of 15 days, have come to land

in excellent condition. As a natural

consequence the new arrival commanded much

attention, and the quality was highly

valued. They were sold by weight, at about

104, per stone. Their average weight was

about 112 stones. On all sides, both by

buyers and sellers, their quality was highly

valued. Future consignments will

follow."

Liberal Conservative Demonstration

in Belleville.

Our readers will have observed with

interest the fact that many gatherings of

Conservatives have held throughout the

Province, at which leading members of the

party have been present, and at which

dramas. Such gatherings as these, besides

the mere pleasure of meeting together, are

often to excellent purpose, as of value in

party sense by the presence of the

of the great party of union and progress

with the gentlemen whose utterances have

so frequently commended themselves to

them; and further, in keeping prominently

before the people the great issues of the

day, and the record of the opposing parties.

Never lacking in spirit, and always well

forward in any good work, the Conservatives

before the people of the great issues of the

day, and the record of the opposing parties.

while the place is supplied by American

bottoms.

Forgetting or disregarding the fact that

British owes her greatness not to her agri-

cultural wealth, but to her manufacturing

industry, and to her commercial enterprise,

they have persistently done all in their

power to repress and if possible to extir-

pate those qualities in the colonies which

have come to be so necessary to the ad-

vance of the mother country.

At the same time that they refuse to give

the farmer that medium of protection

which would suffice to put his products on

an equal footing with those of his rivals in

the markets of his own country. Do not

these considerations afford ample cause and

warrant for a Conservative reaction?

We will take up the fourth count of our

indictment in a future issue.

ARTILLERY FOR THE FRONTIER.—An

Ottawa telegram states that two rifle field

guns will be sent immediately to Winnipeg

over the Dawson Route, with necessary

carriages and stores. They are in-

tended for frontier service, in the event

of disturbances arising within our border.

QUEBEC PROVINCIAL RIFLE MARKS-
MEN.—In the firing on the 16th in the

Rifle Association match Private J. W.

O'Grady, V. V. R., carried off the first

prize.

HOMER'S ACCIDENT.—The Ottawa Free

Press reports that a man named Homer

a circular saw in Watson & Currier's mill

break suddenly in two, and one of the

pieces cut a young lad named Richardson

almost in two. The boy was named in a

horrible manner. Death was almost in-

stantaneous.

STOCK SHIPMENTS.—A telegram from

Montreal on the 16th says: "The Grand

Trunk Railway Company are doing a heavy

stock trade just now, over one hundred

and twenty cars, equal to about two thou-

sand head of cattle, have passed over the

route for Boston within the 24 hours, and

10,000 hogs passed for the same place and

in the same time a few days previously."

A HEARTLESS PRISONER.—A telegram

from Montreal on the 16th says: "James

Hoggin, a sailor, who was injured by his

leg being crushed off by a ship's

screw some days ago, died last night, and

a coroner's jury to-day, in their verdict,

condemned the inhuman conduct of a doctor

who, when called in, would not attend to

the case. The man's death was traced in-

directly to great loss of blood."

TURKISH DEFEAT.—The London Times

correspondent at Ragusa announces that

Parliament prorogued.

THE QUEEN'S SPEECH.

THE SERVICE WAR.—ENTRANCE.—THE

PRINCE OF WALES.—THE

TITLE OF THE CROWN.—MINOR TOPICS.

LONDON, Aug. 15.—Parliament was pro-

rogued at two o'clock this afternoon by

the Queen's Speech read from the Throne by

the Lord High Chancellor:—

"My Lords and Gentlemen, I have the

honour to announce to you that your

Lords and Gentlemen are now assembled

for the first time since the 15th of August

last, and I have the pleasure to inform

you that the Queen has been graciously

pleased to grant you a special audience

on the 16th of August, at which time

you will be able to present your

petitions and business to Her Majesty.

I have the pleasure to inform you

that the Queen has been graciously

pleased to grant you a special audience

on the 16th of August, at which time

you will be able to present your

petitions and business to Her Majesty.

I have the pleasure to inform you

that the Queen has been graciously

A Turkish Joy Miller.

The Turks, gayer and more

than the Americans, who live

in the days of the Turkish

lane (A. D. 1335-1340)—him of the one

eye and the other blind, and who

with the terrible soldier were his face.

The best known story of Nasr-Eddin

is found in collections of fables, and it

is that of his daily feeling the assembly of

true believers out of a sermon by three as-

sented by the pulpit, he said, "Oh, true

believers, do you know what I am going

to say?" They replied, "No." Whereupon

he asked, "Of what use to preach to such

ignorance?" and came down from the

pulpit.

The next time, when he asked the same

question, they answered, "Yes." Whereupon

he said, "It is useless for me to tell you

of me to tell you." And came down.

The third time, having taken counsel

together, the congregation prepared an

answer which they thought would correct

your joke preacher, and said, "Blessings

be upon you, and some do." Whereupon

they replied, "We are glad to hear you

tell those who don't; and once more

come down.

There is also an old similarity in some

of the fables to the Irish story of "Joke

called 'bulla'."

This the Hodja dreamed one night that

he was offered nine acres of land, and

demanded ten; and upon this being

allowed he demanded nineteen, but woke

up before he could say more, and found

there was neither cash nor customer, he

went out and shut up his eyes, saying,

"Oh, well, my friend, I have no more

to say." "Drawer," in Harper's for September.

Wit and Humor.

An Illinois woman who wanted to go to

a man-of-war party at the Hotel de

Scots, looked through the Bible to ascertain

how the character was described.

A little girl was asked the meaning of

happy. She gave a pretty answer, saying,

"It is to feel as if you wanted to give up

all you have to the Lord."

Wasn't I rough on Ella, just as she was

telling Frederick at lunch how she had

applied to me, to have cook howl out: "Say

you have your pork and greens now, or

will I tell your father's name?"

John said a doing parent to her gover-

ness, "Do you know what I want to do?"

He said the whole of that pudding with im-

punity. "I don't know," replied

the governess, "but I guess I can with a

spoon."

A man in San Antonio, Texas, who was

maintaining for the purpose of a water-

mation, finally concluded not to trade

with the dealer through a banana and a

broom. During the time he was engaged

of about five cents worth of peanuts.

A clergyman recently announced from

his pulpit a benediction to the ladies of

his congregation to an orphan asylum. He

unfortunately ended the benediction with

an apostrophe, thus: "May the Lord

take with him your orphanage, so as not

to eat up their orphanage."

At a Paris dinner party recently a hair

comb was discovered in the soup. The

butler merely expressed his surprise that

the comb should be so negligent as to lose

it, and handed it over to the waiter.

There is a Cincinnati pork merchant so

mean that he can't get a single pound of

pork without paying for it. He has a rule

for a railroad train without being de-

stroyed by the sentiment of the excla-

mation, "What a waste of time!"

The observing Detroiters can see a dispo-

sition on the part of the public to return

Poisonous Cheese.

In response to an inquiry, Prof. C. L. Ar.

York Tribune in relation to cheese made of

cheese and dairy articles. A case of

men and others, and the cheese was

the breaking out in different parts of the

Case of a milk which was not

frequent, the symptoms running no further

than nausea and pain in the stomach and

bowels, followed by vomiting and purging.

I have satisfactorily traced the cause to

organic poison of one kind or another,

and to stand here in warm, or at a tempera-

ture at which organic changes can take

place, and of one kind or another, poison

to the human body, it is well known how

developed, as is to be seen in the

water. Cows making use of such water are

liable to take the poison into their cir-

culation system and excrete them in their

milk. As in the process of cheese-making

the milk receives no treatment which

destroys them, they carry their vitality into

the cheese, which when eaten and dis-

in the stomach, sets them free to produce

legitimate results. When milk thus affect-

ed is used for butter, the poison is

destroyed, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

cheese, and does not appear in the

Cultivate in Season.

The truth of the following cannot be too

strongly enforced.

"With a press of work often the cultiva-

tion of food crops is put off until the week-

end has passed, and a considerable area, even so

as to overgrow the crop. This is a mis-

take. Every seed not destroyed is sipping

the ground of the nutriment that is just in

the best condition for the growing plant,

but if the seed is destroyed, as it comes out

of the ground it has as yet only taken its

nutriment from its seed, and is in a state of

inaction, when weeds are sown, they will

multiply, where, if allowed to remain a

time longer, each individual specimen will

produce the same effect. Here is where the

time is lost, and the seed is destroyed.

This is most emphatically true in the case

of corn, beans and other crops closely

sown, where the seed is destroyed.

In case of potatoes, the plant of harvesting

after planting and before they are far ad-

vanced is growing in favor of the

crops to have a good start of the weeds,

and the potatoes are not in the least injur-

ed by the harvest.

Worms in Children.

Worms in children, if neglected, lead to

fatal results. If a child does not sleep well,

is irritable and uneasy, keeps picking its

nose, and is not content with its food, it

is not positively sick, it has worms, and

nothing will relieve it, so speedily, and ef-

fectually, as WORM'S WAX.

CANADIAN BIRDS.

Daily Intelligencer.

Curious, Useful, and Scientific.

**Erison is experimenting, with the ob-
ject of obtaining mechanical power from the
direct action of the sun's rays.**

**They heated air, produced of dust and
dust, and the result was a powerful fan-
gling a wet towel in front of the furnace,
the lower edge of the towel being allowed to
drop a shallow vessel of water.**

**There is a clock in the Continental build-
ing which tells the month of the year, the day
of the month, the minute of the hour,
and which is a good thing for a hundred
years with one winding.**

**A recipe for a new kind of cement for
plugging holes in stone is published by
Thomas, of Glasgow. Seven parts burnt
lime and sixteen parts of phosphate of
lime are mixed together and pressed into
the cavity, which has previously been care-
fully dried.**

**Among the multitude of sparrows in the
park at Cambridge, Ohio, is a young one
which is pure white. It is over a year old
and is perfectly tame. It is so tame that
the boys are all after it, and the pro-
prietors have had to protect it from them.
It is a young one, and it is too young to fly
yet.**

**A prodigy came to light in Sandusky,
Ohio, the other day, in the way of a colored
child, the son of Martin Thompson. The
child is four years old, and measures twenty-
three inches in height. Prominent physi-
cians who have examined it, and who do not
get any taller. The child is in perfect
health.**

**A noble oak, still standing a nest in a
New York tree, and his legs came in a
web of tissue in which he had become en-
tangled. An interested party, who had seen
the bird, was rescued; but one of his legs
was broken, and a physician, after try-
ing to set it, performed an amputation. The
robin was not as well as ever, and again
at work on the nest.**

**Mr. Floyd, of St. Francisco, the presi-
dent of the Board of Trustees of the Lick
Observatory, has been consulting Lenoir, of
Paris, as to the construction and furnish-
ing of the proposed Lick Observatory, and
the grounds of the Paris Observatory have
been thrown open for his use in making
experiments with large apparatus. A re-
fracting telescope with a lens one meter
in diameter has been made in Europe at
some of the celebrated factories.**

**It is said that the French military system
of weights and measures is about to be
revised into Russian. The special com-
mittee who are sitting at St. Petersburg,
at the head quarters of the Russian im-
perial technical society, have not only come
to the conclusion that such an innovation
will be useful, but have also decided to
introduce the present in the following man-
ner. They declare that it is the change ought
to be accomplished within two years.**

**The London Lancet has received from a
military correspondent a splint extensor
from telegraph wire. The splint was
adapted for the upper arm, and was
accompanied by a pad from a piece of
a soldier's serge tunic. It is not diffi-
cult to divide telegraph wire of galvanz-
ized iron and an English firm of cutlery-
makers have turned the idea into a
pair of ordinary straight scissors into a
file for the purpose of nothing the wire so
that it may be broken at the required point.**

**Here is a remedy for the ills of the flesh
and spirit, composed of leaves, and roots,
which, if taken without a very face,
will make any man respectable and happy.
Leave off drinking.
Leave off smoking.
Leave off eating tobacco.
Leave off swearing.
Plant your pleasure in the home circle.
Plant your business in some honorable
employment.**

**Plant your faith in Truth,
Root your habits in Industry,
Root your feelings in Benevolence.**

**A tortoise was lately brought into
Central Park having the shell of a full
grown oyster grown upon its back. Frank
Beckland recorded a similar instance in
England a few years ago, and predicted
that if the oyster shell were removed, the
tortoise would be found to have moulded itself
to all the rugosities of the surface of the tor-
tose. The Central Park specimen
rubbed the shell off its back a few days ago,
and the pattern of the scales was found
imprinted on the hard shell, showing the
truth of the British naturalist's prophecy,
that the valve of the oyster which is attach-
ed to the rock or other object takes the form of
its surface.**

**The admirer of Icelanders have existed the
last few years, and are now being seen in
the volcanic region of the Dyngjuvatn
Jeldur, and descending the crater of the
volcanic Askey. Askey, a mountain, which
came to a lake of nothing but water,
which was apparently of great depth.
The Southern community of Askey, which
the ground was broken up by fissures, and
pools, which prevented further progress,
and north of the great crater, the explorers
found an opening about 600 feet wide, which
appeared to be of equal depth, and from
which issued dense masses of white smoke,
accompanied by loud and deafening sounds.**

**The first aquarium ever erected in Scot-
land was opened at Rothbury, in the island
of Bute, a few weeks ago. The situation
of the aquarium is said to be in every re-
spect favorable, and there is a large amount
of tank accommodation, which has been ar-
ranged to be so as to contain both salt-water
and fresh-water fish. The fresh-water tanks
are probably the largest of the kind in Great
Britain, and the salt-water tanks are prob-
ably the largest of the kind in Scotland.
The aquarium is in progress of construction, and
a sea-pump is in progress of construction, and
a few little preliminary remarks can be made
before the aquarium is opened to the public.
The salt-water reservoir is capable of
containing nearly twenty thousand gallons of
water, and the fresh-water reservoir is cap-
able of containing nearly ten thousand gal-
lons of water.**

How to Win a Woman's Favor.

**It is very easy to make yourself popular
with the ladies. Don't stand back and
trouble, and think that because you have
the figure of Adonis or the face of Apollo,
you stand to chance at all. It is not man-
ner and straight nose that do the business.
Women—believe their souls—do not
care a fig for the outward appearance of a
few little preliminaries, and you can make
them like you if your hair is red and your
eyes are blue. When you are in the habit
of evening call, don't start too early. Ladies
are not well pleased, to be caught before
they are ready. Be particularly careful not to
sit down on the cat or the dog, and the dog
or the cat. If you are in the habit of
knowing how to appreciate her pet, it
will be a great help to you. Don't mis-
take the artificial dross in the vase for
the rose. If the young lady is doing
cruelty-work, ask if she can't touch you.**

STAGE ROUTES.

Stages leave the principal hotels for the un-

derground daily at the hours named:

For ST. LOUIS..... 8 a. m., and 2 p. m.

For BIRMINGHAM, TRENTON, &c., daily, at 2 p. m.

For PHILADELPHIA, daily, at 2 p. m., whilst re-

turning is closed.

The stages arrive in Belleville about noon

each day.

Daily Intelligence.

BELLEVILLE, WEDNESDAY, AUG. 23.

Town and Vicinity.

BATHS.—Hot and cold baths at Thompson's Hotel, West Belleville, at ten cents each.

PUBLIC SCHOOLS.—The schools reopened to-day with a very large attendance, most of the divisions being crowded.

MIDLAND CENTRAL FAIR.—This fair is to be held in Kingston on the 27th, 28th, and 29th of September. Prizes and terms can be obtained from the Secretary.

THE REGATTA.—Entries for Friday's regatta had not closed up to the hour of our going to press. There is, however, a certainty of five, and probably six or more contestants for the prizes.

VICK'S FLOWER GUIDE.—The last issue of Vick's Flower Guide contains much practical advice for the winter care of flowers and contains information of value to every gardener. Issued by James Vick, of Rochester.

FIRE IN AMELIAHURST.—The house of Charles Glenn, situated in 2nd con. of Ameliahurst, was destroyed by fire about 1 p. m. on the 21st. Loss \$1,200. Insured in the Victoria Mutual for \$400 on the building, and contents not known.

CAUGHT IN A BEEKE.—The Palladium of the 21st says: "The schooner French-wood, which arrived yesterday with lumber from Mill Point, was caught in a breeze yesterday morning and contributed 20,000 feet of lumber towards making a winter home for Neptune."

MASSIVE FETTER.—The father of Nicholas O'Connell, an old member of the Massacree Fraternity, took place this afternoon with Masonic honors. There was a large turn out of the Brotherhood, and the procession was conveyed to the cemetery on the steamer Prince Edward.

INSTITUTION FOR THE DEAF AND DEUM.—This institution will re-open for the ensuing term on Wednesday, Sept. 6th. Complete arrangements have been made for the reception of pupils, and the railway stations. The early attendance of pupils is desirable, as the classes will be organized during the first week of the term.

GRAND EXCURSION.—The Young Men's Christian Association of Kingston have organized an excursion to Montreal and Quebec, particulars concerning which appear in our advertising columns. The fare has been placed at so low a figure that a large number of persons from this town will doubtless take advantage of the opportunity to visit the two principal cities of the Dominion. The trip is a most delightful one, and the date chosen is about the pleasantest time of the year.

THE LAMPS CONCERT.—The programme for the lawn concert, which is to take place on Senator Flint's grounds on Friday evening, has been published. It embraces a fine selection of choice music, and is well rendered by the band of A. Battery, under the direction of Mr. Rackett. Seats will be placed around the miniature lake, and every facility will be afforded to enjoy the music in comfort. The efforts of the managers of this entertainment are deserving of the success which it is safe to predict they will achieve.

GRAND JUNCTION BY-LAW.—A telegram informs us that the By-law of the Township of Percy, giving a bonus of \$6,000 to the Grand Junction Railway, was carried yesterday by a majority of 38. This included the northern part of the Township. This is encouraging news, and shows that the people along the line are anxious to have the Railway built. It is to be hoped some satisfactory scheme will soon be adopted by which this enterprise will be pushed forward to completion.

A SIMPLE EXCHANGE.—Every little while, says an exchange, we read of some one who has stuck a rusty nail in his foot or some other part of his person, and loquax has resulted therefrom. All such wounds can be healed without any fatal results following them. The remedy is simple:—It is only to smoke such wound or any wound that is inflamed, with burning wood or wooden cloth. Twenty minutes had the smoke of wood will take the pain out of the worst case of inflammation arising from any wound we ever saw.

THE SCHOOL PLEAS.—The success of the great school picnic, which is to take place on Friday, is now assured. Some difficulty was anticipated in landing from the Onondaga Hotel, but Mr. Pope has had a pier sunk at the landing place which will obviate all trouble from that source. There will be sports of all kinds for the amusement of the pupils, including a football game for boys and for girls, wheelbarrow races, sack races, blindfold races, standing and running long and high leaping, swings, &c., and in addition those events will be

Board of Education.

TUESDAY, AUG. 22.

The Board met this evening.

Present.—Messrs. Shilling, Chairman; Bell, Glass, Wendeny, Decker, Northman, A. Diamond, McFarlane, J. Diamond, Newberry, Tenney, and S. C. Carson, 13 in all.

The minutes of the last meeting were read and approved.

A communication was read from Miss Potter, accepting the position of teacher in School No. 2.

The report was read of the Committee on School Organization, which has no further applications having been received. Mr. Sprague has appointed Head Master of School No. 1, at a salary of \$200; that in consequence of Mr. McFarlane's failure to obtain a certificate or a permit, and being consequently disqualified, Miss Potter be appointed second assistant of School No. 2 at a salary of \$100; that an application in Mass Gould for that position in School No. 2 be placed on record. The committee by agreeing that School No. 2 having been reorganized, will prove more efficient, and that some of the teachers will infuse more energy into their work.

The report was considered clause by clause and adopted without dissent.

Mr. Glass reported that all necessary arrangements had been made for the picnic, an already made public.

The Board adjourned.

MORNING DESPATCHES.

EUROPEAN.

THE EASTERN WAR.

LONDON, Aug. 23.—A Belgrade telegram to the Times contains the report of the recon-

struction of Gurgurevich and Tschoukoff, who have been sent to the front to maintain the present operations. He has 40,000 men, which force is insufficient for an attack on Alexander, General Tschoukoff having 70,000. The tactics of the Turkish commander are uncertain. Possibly he intends to shift Tcherahyev in, whilst another Turkish division marches from Saitchur to Parisch.

AMERICAN.

GRANGERS' COMBINATION.

Sympathy for Fenians.

BILLIARD MATCH.

SAN FRANCISCO, Aug. 23.—The Grangers' convention to devise means to break the power of the so-called grain ring, this evening passed a resolution to sell no wheat in this market for less than \$1.65 per bushel, and made arrangements for shipping on their own account.

A mass-meeting of Irish citizens passed resolutions of sympathy for the Fenian prisoners released from Andover and sent to the United States, and took steps to raise contributions for their benefit.

In a game of billiards yesterday between Kraker and Kraker, champion of California, the former played 900 points to the latter 175. Sexton won, making an average of 331 points, Kraker scoring 134.

Arrivals Reported at Custom House.

TUESDAY, AUG. 22.

The Board met this evening.

Present.—Messrs. Shilling, Chairman; Bell, Glass, Wendeny, Decker, Northman, A. Diamond, McFarlane, J. Diamond, Newberry, Tenney, and S. C. Carson, 13 in all.

The minutes of the last meeting were read and approved.

A communication was read from Miss Potter, accepting the position of teacher in School No. 2.

The report was read of the Committee on School Organization, which has no further applications having been received. Mr. Sprague has appointed Head Master of School No. 1, at a salary of \$200; that in consequence of Mr. McFarlane's failure to obtain a certificate or a permit, and being consequently disqualified, Miss Potter be appointed second assistant of School No. 2 at a salary of \$100; that an application in Mass Gould for that position in School No. 2 be placed on record. The committee by agreeing that School No. 2 having been reorganized, will prove more efficient, and that some of the teachers will infuse more energy into their work.

The report was considered clause by clause and adopted without dissent.

Mr. Glass reported that all necessary arrangements had been made for the picnic, an already made public.

The Board adjourned.

MORNING DESPATCHES.

EUROPEAN.

THE EASTERN WAR.

LONDON, Aug. 23.—A Belgrade telegram to the Times contains the report of the recon-

struction of Gurgurevich and Tschoukoff, who have been sent to the front to maintain the present operations. He has 40,000 men, which force is insufficient for an attack on Alexander, General Tschoukoff having 70,000. The tactics of the Turkish commander are uncertain. Possibly he intends to shift Tcherahyev in, whilst another Turkish division marches from Saitchur to Parisch.

AMERICAN.

GRANGERS' COMBINATION.

Sympathy for Fenians.

BILLIARD MATCH.

SAN FRANCISCO, Aug. 23.—The Grangers' convention to devise means to break the power of the so-called grain ring, this evening passed a resolution to sell no wheat in this market for less than \$1.65 per bushel, and made arrangements for shipping on their own account.

A mass-meeting of Irish citizens passed resolutions of sympathy for the Fenian prisoners released from Andover and sent to the United States, and took steps to raise contributions for their benefit.

In a game of billiards yesterday between Kraker and Kraker, champion of California, the former played 900 points to the latter 175. Sexton won, making an average of 331 points, Kraker scoring 134.

For THURSDAY—Daily, at 3 p.m., whilst navigating.
The stages arrive in Belleville about noon each day.

Daily Intelligencer.

BELLEVILLE, MONDAY, AUG. 28.

Town and Vicinity.

ENGLISH MALE.—The mails which arrived by the steamship *Peruvian* were distributed here this morning.

FOR TORONTO.—The teams representing the Hastings Rifle Association will leave for Toronto to-day for Toronto, in which city the matches of the Ontario Rifle Association will commence to-morrow.

FIRE AT FRANKFORD.—A new barn belonging to Mr. Frankford, adjoining Frankford, was totally consumed by fire at two o'clock on Saturday, the 26th inst., with all this year's crop, threshed, in it. Loss, about \$1,500; insured in the Hastings Mutual for \$500. Supposed incendiary.

POSTPONEMENT.—In consequence of a meeting of the picnic Committee of the Board of Education being announced for this evening in the Police Magistrate's office, the regular monthly meeting of the Murchison Club has been postponed until Monday evening next, September 4th.

GRAND SACRED CONCERT.—It will be seen by advertisement that a grand sacred concert, at which excellent talent will assist, is to be given in St. Michael's Church to-morrow evening. The programme is an excellent one, and the array of performers gives assurance of its satisfactory result. Admission free. Collection at the door.

A FALSE REMOVAL.—It is said that rumor has a thousand tongues, but here the dame and ten thousand children of the village, one had it that a great fire had occurred in Stirling yesterday and that half of the village had been destroyed. The report, though very circumstantial in its details, seems to be entirely untrue, as enquiry develops the fact that no fire had occurred in the village in question.

FREE ALARMS.—Although the wards of the town are numbered for fire alarm purposes, the town bell is still rung without any reference thereto, and people are left to find out as best they can the locality of every fire that occurs. Valuable time is not infrequently lost from this cause, and the sooner that the bell is rung in a proper manner the more satisfactory will it be to people generally. The matter was broached at a recent meeting of Council, and the Chairman of the Fire, Water and Gas Committee promised to take the necessary steps. We look to Mr. Fahy, to alter this state of affairs.

WEIGHTS AND MEASURES.—Here is one of the clauses of the Weights and Measures Act now in force in Canada. Perhaps it would be well for all concerned to read over the clause and be governed accordingly. A penalty of from \$5 to \$50 is to be met these times.—Sec. 27.—Every trader, manufacturer, carrier, public weigher, gauger, measurer, surveyor, or any other person, who after the expiration of time appointed under this Act for the first inspection, in the inspection division in which the carrier on his business, offers for sale or uses, for any purpose of buying, selling or charging, for the measure of any goods, wares, merchandise or thing, or of measuring any work, land, goods, materials or other thing, for purpose of charging, or for ascertaining the price to be paid or the charge to be made thereon, any weight or measure, or weighing machine, or scale, which has not been duly inspected and stamped according to this Act, or which may be found light, deficient, or otherwise unjust, shall be guilty of an offence against this Act, and shall on conviction, incur a penalty of not more than fifty or less than five dollars for each such offence; and every such stamped, light, deficient, or unjust weight, weighing machine, or scale, or measure, or other thing, offered for sale, or found in his possession, shall on being discovered by the Deputy Inspector, be forfeited and forthwith seized and broken by him, without suit or other remedy than this Act.

SERIOUS ACCIDENT.

A MAN WALKS OVER THE RIVER BAR AND BREAKS HIS LEG.

On Saturday night, about 9 o'clock, a man named Hugh McDevlin, who is employed by Mr. Deane Hart, of the town mill, was crossing the river bar, in company with Mr. Hart, when he was struck on the west side of the river, and a "short cut" by which the stream runs, was very dark, and the horse missing the road, threw the man over the buggy to determine their whereabouts. He had made but two or three steps forward when he fell over the river bar, about fifteen feet high. The poor fellow, who had been partially stunned by his sudden descent upon the river bar, was lying on his back, and was unable to move. Some young men who were in the rear part of Mr. Hart's boat and who were on the opposite side of the river, heard the unfortunate man's groans. They crossed the stream, and finding McDevlin, carried him up the bank and placing him in Mr. Hart's buggy, drove to the town mill, where the doctor found that McDevlin had sustained a compound fracture of the leg, the bone being broken and protruding through the skin. The necessary arrangements were made, and the patient was despatched to his home. Such an accident is to be regretted, but it is fortunate that no serious results ensued. It would be a wise undertaking on the part of the owners of the property in question, to fence it off and thus prevent the danger of similar accidents in future.

WANTED.

WE WANT reliable, energetic canvassing for the new "Illustrated Times" of the month of LAURENCE, it is truly unique in its contents, and is a valuable addition to the library. GRAND TRUNK P.C.N.C.

THE EMPLOYEES ENJOY THEMSELVES AT MASSARAGA POINT.

The G. T. R. picnic to Massaraga Point on Saturday, 26th inst., proved to be of the most successful and complete days of amusements that has ever taken place at our favorite resort. Undoubtedly the largest number of persons in starting from the wharf occupied, caused by the failure of the steamer *Kiowash*, which was engaged for the occasion to connect the wharf with the shore. The boats were not venture to cross the lake from the other side, owing to the high wind. However, Mr. Gunn, the G. T. R. agent, was so fortunate as to be making the best of the disappointment by at once engaging the steamer *Norfolk* as a substitute. The programme for the day was complete and the most complete ever introduced to any of our picnics. This being comparatively a private picnic for the employees of the G. T. R. and their friends, and no public patronage being asked by advertisement or any other means, it deserves the greater praise on that account. The employees expressed themselves greatly pleased with being honored by the presence of His Worship the Mayor and family. Mr. Foster is a great favorite with the working men of this town as well as with the employees of the G. T. R. (who call him the working men's friend.) His Worship took part in all the amusements and enjoyed himself cheerfully with the party.

Among the numerous games was the eating of the hams for prizes. This consisted of a large ham hung to a parallel pole placed about five feet high, and the ham being well dipped into molasses; the party entering the game must have his hands tied behind his back, and the one who first finishes eating his ham gets the prize. This trial was a great laugh, to see these young fellows grasping the ham and the one who first finishes eating his ham gets the prize. This trial was a great laugh, to see these young fellows grasping the ham and the one who first finishes eating his ham gets the prize.

LONDON, Aug. 28.—The *Times* editorial on the Bulgarian atrocities concludes as follows: Mr. Baring's report of the wholesale massacre of Bulgarians is a most important and other official witnesses will have much practical value during the negotiations which will follow the close of the Servian war. They will give this country the opportunity of clearly defining the position it holds with respect both to Turkey and the great Powers. It has been said that Turkish ministers are anxious to reach a compromise, because they think that England will not support Turkey. Turkey would be disastrously mislead, hence it is argued that she is indirectly accountable for the Bulgarian massacres; but it is difficult to believe that to leave such a crime uncondemned would be to the Turkish Empire. They know little of this country if they think it could condone such a crime as the wholesale massacre of a whole nation. Like some other States, it has an interest in Turkey, but it would be desirable to see her strong, but she cannot be without being well governed, and the power will be well served until she has reversed many parts of her present system. Turkish misrule means weakness, recurring rebellion, and foreign war. It carries with it a menace to the whole of Europe. This country will be ready to join other States in devising such reforms as will protect the Christian part of the population, without regarding the convenience of the Porte.

PEACE NEGOTIATIONS.

LONDON, Aug. 28.—The *Standard's* Belgrade despatch says: While Prince Milan is showing his good sense in trying to negotiate peace, Russian officers continue to arrive in great numbers, and Gen. Tchernyavsky by repeated attacks upon the Turkish lines is doing his best to make the negotiations abortive. He has succeeded so far that the Porte, in reply to a tender of mediation by the Powers, has declined to listen to it. At the same time, the Russian reports of a Servian victory on Thursday last are confirmed by the latest despatches.

Family Matters.

GRASS FROM COURT.—Grass can be removed from cloth by a paste of soda earth and turpentine. This should be rubbed upon the fabric until the turpentine has been absorbed and a white powder remains. This latter can be brushed off, and the grass will disappear.

TO MAKE CHOCOLATE.—Take a very thick solution of gum-arabic in water, and stir into it a plaster of Paris until the mixture becomes of a proper consistency. Then mix with a brush to the fractured edges of the china, and stick them together. In three days the articles made in broken in the same manner. The whiteness of the cement renders it doubly valuable.

HOW TO GET RID OF FLIES.—A clergyman, writing from Ireland, says:—For three years have lived in town, and during that time my sitting room has been free from flies, three or four only walking about my room, and all my neighbours' rooms were crowded. I have never used any fly paper, and never know the reason of it until two days ago. I then had occasion to move my goods to another house, while I remained on for two days longer. Among other things moved were two boxes of geraniums and calceolarias, which stood in my window, the latter having been sent to its full extent an hour before my room was as full of flies as those around me. This, to me, was a new discovery, and I thought it may serve to encourage others in that which was a source of pleasure to me. I have now proved also to be a source of comfort, viz., window gardening.

Beware of Quacks.

In nursing children a mother cannot be too careful what she gives her infant, for a mistake here may mean death. WINGATE'S INFANT PREPARATION is the best and most reliable for Europe for upwards of 80 years, and contains nothing to injure the most delicate child. It is composed of the purest drugs, and is the prescription of the late Dr. Wingate, of London, England, who is still in the front of the profession in both Hospital and private practice.

TRAVELLERS' GUIDE.

GRAND TRUNK TIME TABLE.

GOING WEST.	
No. 2 Day Express.....	8:20 a. m.
No. 1 Morning Express.....	9:00 a. m.
No. 3 Mixed.....	10:00 a. m.
GOING EAST.	
No. 1 Day Express.....	12:01 p. m.
No. 2 Night Express.....	12:02 a. m.
No. 3 Mixed.....	12:03 a. m.

STAGE ROUTES.
Stages leave the principal hotels for the un-
dermentioned places at the hours specified.
For **SENIOR**—Daily, at 8 a. m., and 2 p. m.
For **MAINE**—Daily, at 8 a. m., and 2 p. m.
For **BALTIMORE**—Daily, at 8 a. m., and 2 p. m.
For **THURSDAY**—Daily, at 2 p. m., and 11 a. m.
The stages arrive in Belleville about noon
each day.

Daily Intelligencer.

BELLEVILLE, TUESDAY, AUG. 29.

Town and Vicinity.

SMOKE.—The atmosphere is dense with
smoke, and to such an extent as to obscure
the landscape. It is not probable that the
rainfall desired.

THE "DAUNTLESS."—It is expected that
this yacht will be entered for the races at
Toronto. A new and lighter mast will be
stepped in here in a few days, giving her
increased stability in a blow.

THE GRAIN MARKET.—The market is
dull, and a few loads have been changed
hands at advanced prices: Barley 50c to
55c—60c would be paid for a first class
sample; Rye 50c to 55c; Peas 60c.

A ROW.—There was a first-class scolding
match on Church street last night between
a couple of viragos, whose language was
the most abusive character. Each were
brought up to a high pitch of rage, and
abused each other to the delight of a large
crowd of their classically learned neigh-
bors. In spite of viragos' demonstrations,
the scolding match came to an end with
"nobody hurt."

PERSONAL.—John A. Barry, Esq., editor
of our able contemporary the *Owego Pa-
ladian*, arrived in town this morning, on
steamer *Sunrise*, and left for home this
evening. This was Mr. Barry's first trip
up the bay and his first visit to Belleville.
The smoke obstructed his view of the fine
scenery of the bay, but he seemed to be
impressed with the appearance of the
town. We hope that Mr. Barry may make
a visit to Belleville at some later date when
he has more time at his disposal.

SCENIC CONCERT.—The concert in St.
Michael's Church to-night promises to be a
brilliant affair. In addition to the very
valuable assistance who belong to the
congregation, Mr. Wishart, Mr. McPherson,
will assist, and Mr. Denys will furnish
the accompaniments. With such an
array of capable performers, the fine selec-
tions which have been chosen ought to be
rendered in such a manner as to afford a
musical treat of rare excellence. No charge
is made for admission; collection at the
door.

MISCHIEF.—A number of boys were last
night exercising their propensities for mis-
chief by placing good sized stones on the
rails of the street railway track. When a
passing car reached the obstruction and a loud
noise resulted, the boys dashed off and
manifested their pleasure in a characteristic
way. This practice may be good fun for
the boys, but it is dangerous to the Com-
pany's property, and no doubt the youths
will be looked after in future. The de-
vils might easily be captured, if the
police were to look after them.

CANADIAN ARMY.—The following
Canadians were registered in the Govern-
ment offices in London during the week
ending August 17th: "A. Campbell, Hal-
fax; J. D. Rod, Nova Scotia; J. P.
Smith, Amherst, N. S.; J. Ferguson, D.
Macfarlane, Thasville, N. S.; J. Macfarlane,
Woodstock, Ont.; R. Hines, Peterboro';
J. Fair, Clinton; J. Laidlaw, Seaford;
M. McCallum, Cobourg; P. H. Wallace,
Toronto; D. A. Connor, Montreal; P. R.
Eccles, M. D. Mrs. Eccles, Arona; C. G.
Black, Hamilton; R. B. Leslie, Toronto;
J. Harvey, Port Sarina; J. Robertson,
T. S. Finch, Thomas E. Watkins, Hamil-
ton; Lieut. Col. Hulse, Belleville; G. B.
McDonough, Goderich; John Duguid,
Cobourg; H. Lefevre, Quebec; Major
Doherty, St. Hyacinthe; H. B. Brown,
Wm. Salter, Robt. Gardner, Gibson R.
Walton, Sherbrooke; F. C. Mahon, Hal-
fax."

HARTZ.—The *Montreal Star* says: "So
long a time has passed since we have had a
really good magician, that the coming of
Hartz will be hailed with delight by lovers
of the 'art magic' in fact since Hartz
was here, seven years ago, no other person in
the city had one really good illusionist in our
Hartz depends upon his own merits to
crowd his fellows, does not offer the flimsy
inducement of 'gifts' and 'always suc-
cess.' Besides the great attraction of his
own entertainment, Hartz, the eminent
pianist, assists. She is pronounced one
of our best artists in that line, and said
to be equal if not superior to most of our
celebrated pianists. Hartz is taking
his farewell trip, we are told, through this
country preparatory to his going to Eng-
land, where he intends to settle in his own
home. He will introduce himself in an
entirely new entertainment, and will each
night expose the spiritualist humbug. In
this matter he is a great enemy of the
'mediums,' for he has done more to expose
their tricks than any other person in the
country, and for which he deserves the
thanks of the entire public. He will ap-
pear at Metropolitan Hall on Friday and
Saturday, Sept 1st and 2nd.

MORNING DESPATCHES.

EUROPEAN.

THE EASTERN WAR.

THE TURKS CLAIM A VICTORY.

SERBIANS LOSE 10,000 MEN.

THE BULGARIAN ATROCITIES.

A FEARFUL SLAUGHTER.

LONDON, AUG. 29.—A despatch to the

Standard from Alexandria says:—Authentic

accounts show that the battle which was

claimed as a success by Tchernoff really re-

sulted in a victory for the Turks. Fazla

Paşa, commander of the division of the right

wing Thursday, forcing attack in the rear,

fell back. The Serbians attacked all along

the line on Friday, but the Turks drove them

back. There was heavy fighting on Saturday

but after five hours incessant conflict Tchern-

off's attempt to break through the Turkish

lines failed. The Turkish army, from Rybn

Paşa, failed, and the Turks were

completely victorious.

The Standard's correspondent with Ali Sab

at the left bank of the river opposite Alexan-

dria, reports that the Serbians were repulsed

with great loss on Saturday, after seven hours

fighting. The Serbians have claimed this bat-

tle as a decisive victory.

A Belgrade special despatch says Tchern-

off's accounts of his victories are now gener-ly

discredited.

The Standard's correspondent with the

Serbians at Alexandria says the Serbians lost

10,000 men in the first day's fighting around

the town.

A Belgrade despatch in the *Nes* reports a

deadly struggle between the Serbians and

the correspondent of the *Prague Politik* and

a cavalry officer. Both men were wounded.

The Daily News publishes Mr. Schuyler's

preliminary report of his investigation into

the outrages in Bulgaria. The report is ad-

dressed to Mr. Maynard, Minister of the

United States at Constantinople. It fully

indicates that the Serbians have been guilty

of the most heinous crimes. The report is ad-
